

7 PILLARS to SUCCESS & FINANCIAL FREEDOM

SELF-KNOWLEDGE

This is the FOUNDATION of success, happiness and fulfillment in our life. Self-knowledge is not something we get, and then we're done. It's an ongoing lifetime process of discovery. In this case, we start with FINANCIAL EDUCATION. Once we have some basic knowledge of sound Money Management principles (DEBT elimination / Budgeting / Cash Flow control / Saving & Investment, etc) – our journey to Financial Freedom will be much easier, and much faster. One thing is for certain - no one ever achieved any level of Financial Freedom without having clarity in this important area – and in what follows...

1)- GIVING - Why is giving the first Pillar? When people come together with the intention of 'giving' maximum - each 'receives' maximum. It's based on the beautiful **Law Of Attraction**. All successful people, groups and organizations understand that LONG TERM RELATIONSHIPS are the basis of their success. Long term relationships only happen by continuing to give more value than is expected. What goes around - comes around. What we willingly send out, without any hidden agenda - comes back to us, ten-fold. We are talking here about the "know, like and trust" factor - and one of the finest ways to begin to

develop this with others is through simply “**networking**” with people (showing authentic interest in them - listening to them - being a warm buddy with them). Check out this great article, by a top professional [[hit your BACK Button to 'return'](#)]: Click Here => http://AndreaGoodsaid.typepad.com/weblog/2007/05/is_networking_y.html .

2)- DREAMS - Our dream is **our WHY**. It is the 'reason' we do what we do on the road to success, prosperity and happiness. If our dreams are small, our results will be small. But when our dreams are big, then we soon realize we need the next pillar - TEAMS - to achieve our dream. Big dreams simply cannot be done alone. The clearer we are about our dreams, the sooner we will find them showing up in our life.

3)- TEAMS - Financial Freedom is not a solo event. We like to say T-E-A-M stands for - **T**ogether, **E**veryone **A**chieves **M**ore. Ok, so, how do we create a successful Team of Partners? How do we structure our Team so that Financial Freedom is the outcome? Well, one way is to study what the highly successful masters of history did => form **MASTERMIND ALLIANCES** (see below) - in order to utilize a Board Of Directors philosophy => by "brainstorming" on proven Success Principles.

4)- MENTORS - They show us the shortcuts. They help us avoid the pitfalls. They give us the perspective we need to keep going when everything seems to be falling apart. They **COACH** us. They are indispensable. Sometimes they are someone we work with. Sometimes a mentor is an 'event' that happens in our lives. Sometimes they are a Teacher or Trainer or Coach or Leader or Partner - either within our Team, or outside.

5)- ALLIANCES - Alliances are an expansion of the principle of Teams. By creating alliances, we create the ability to **LEVERAGE** our results, in order to create outcomes that others would think are impossible. Our Strategic Alliances and Affiliations are critical - we have many we can select from.

6)- SYSTEMS / SKILLS / TOOLS - This is what most people focus on. They ask, **H-O-W** do I do it? Of course, the How is important - as most lack the **SKILLS** for success. But it's not as important as our **W-H-Y**. Our **SYSTEMS** stand for -**S**ave **Y**our**S**elf **T**ime, **E**nergy and **M**oney. But our true success doesn't come from "outside" sources (Systems / Tools / Resources) - it comes from "within" us (our Dream / Desire / Belief / Action / Perseverance).

7)- MULTIPLE STREAMS of P-A-S-S-I-V-E INCOME - Famous author, T. Harv Eker, says Financial Freedom is => "when our passive income exceeds the cost of our desired lifestyle."

If we we have only ONE primary source of income - we are too VULNERABLE.

Robert Kiyosaki (respected investment guru, teacher and author (Rich Dad, Poor Dad / Cash Flow Quadrant, etc) says:

- “If we haven't mastered the art of creating multiple streams of passive income, we will never be financially free
- “We will never become financially independent working for someone else
- “People who become wealthy build “networks” - the rest of the population looks for work

S-U-C-C-E-S-S

But is success measured only by whether we have gained Financial Freedom?

NO, of course not. Success may be measured by - the quality of children we raise, or the quality of our parents lives as they get older, or by our position of influence in society, or by the number of people who seek us out for help and guidance, or by how much better we make our world – on and on. There are many measures of success.

So, why do we put so much emphasis on being Financially Free? Because Financial Freedom leads to all kinds of other freedoms - freedom to enjoy our family and friends - freedom to travel – freedom to support worthy causes - freedom to be rested, fresh and fully conscious - freedom to do good in the world - freedom to use our time as we choose, rather than as others dictate.

We believe it is the birthright of every person on this earth to enjoy Success and Financial Freedom. Wealth is not limited by anything, except human creativity. We know that there is NO limit to creativity – and NO limit to the prosperity and abundance we can have (it's limitless within the universe) - so ultimately, there must be NO limit to the ability to create wealth.

The question is - are we READY yet to persue the journey, for more Success - Peace - Prosperity - Happiness and ultimately => **FINANCIAL FREEDOM?**
